**CHUGACH NAMES WILLIAM BYRUM AS GENERAL MANAGER  
OF NEW SUBSIDIARY CHUGACH INTELLIGENCE SOLUTIONS, LLC**

(Anchorage, Alaska) – Chugach Government Solutions (CGS) is announces a new subsidiary, Chugach Intelligence Solutions, LLC (CIS), and names William (Bill) Byrum as General Manager. CIS will focus on Facility Management, Facility Maintenance and Construction Projects. Currently, CIS is in the process of applying for the Small Business Administration’s 8(a) program. This new subsidiary will hold a facility clearance, enabling work to be performed at classified sites. The ability to perform these services with a security clearance is a clear market differentiator for CIS.

Bill is a fifteen-year veteran of CGS, having worked in many of its subsidiaries, including Chugach McKinley, Inc. and Wolf Creek Federal Services. Bill grew his current project from 65 people to nearly 800. His focus on our intelligence customer at Fort Meade bodes well for Chugach, demonstrating our ability to execute multimillion-dollar, multi-year contracts successfully. From snow removal to overseas construction work, Bill and his team respond dynamically and ensure that this customer is the number one priority. With CIS, Bill will build upon this diverse work performance and be strategic in aligning cleared resources with customers’ needs. Leaning on Chugach’s Core Behaviors, Bill will continue to empower his team to make safety a top priority while ensuring outstanding contract performance.

“Over a decade ago, I visited Bill in Maryland. He spoke to me about a program office in the region. Looking back at that conversation and seeing how Bill developed a formidable team to support his customer and others, it was an easy choice to name him as the General Manager of CIS,” says Tim “Hoops” Hopper, CGS President. “I am excited to watch and help Bill lead the CIS TEAM to new heights as he institutes the Chugach Asset Management Program (ChAMP) into his projects and formalizes the ‘Chugach Way’ into all of his projects. With Bill at the helm, CIS will deliver quality services across the globe safely and effectively.”
